PROFESSIONAL EXPERIENCE

10root Cyber Security

10/2023 - 01/2024

FullStack Developer

In this role, I developed and optimization of a sophisticated Node.js bot, implementing robust chat functionalities, localization features, and cutting-edge image alteration functionalities. My proactive approach to staying ahead of industry trends and delivering exceptional user experiences is endorsed by a recommendation letter from team lead Nof Levi.

I left this role when coming to Denmark on January

Metropark Co.

08/2022 - 09/2023

Information Technology

Performed database operations using PL/SQL for viewing and committing data. Administered systems, managing accounts, permissions and ensured efficient functionality, alongside various IT responsibilities.

Created A Video-Player Website Using ReactJS

04/2023 - 05/2023

Freelance Gig

Developed a custom video-player website with ReactJS, featuring an intuitive interface for seamless playback, customizable speed, volume controls and a user-friendly time bar akin to editing software. Implemented advanced functionality for frame capture , meeting client needs and enhancing user experience.

[GitHub pages deployment for the website\(clickable link\)](#)

Game Development

01/2023 - 04/2023

Self-Employed

Developed and published 'Slime Go Up,' a Unity and C# mobile game, featuring ads, an in-game store and cosmetic enhancements. Previously available on Google Play Store, now unpublished.

VOLUNTEER WORK

Food Distribution Volunteer

I volunteered at a food distribution truck, serving the underprivileged community. Through this experience, I honed invaluable social skills like communication, inventory management and time management, while contributing to a cause close to my heart.

Coding Mentor

Teaching Java, JavaScript, C# and C to college students facing academic challenges. This enriching experience not only allowed me to impart knowledge but also helped me refine my communication and mentoring abilities, fostering a rewarding environment for both students and me. I continue to teach for free in my spare time to this day.

Food Delivery

I volunteered to distribute food packages to elderly individuals confined to their homes during the holidays.

EDUCATION

Diploma in Software Engineering, Telhai College , Israel

2018 – 2021

Successfully completed a Software Engineering diploma, demonstrating proficiency in diverse programming languages such as C#, C, Python and JavaScript. Acquired expertise in various tools including SQL and GUI development. Attained a notable final project score of 90, maintaining an outstanding diploma average of 85 throughout the program.

Online Certificates

- [Complete C# Unity Game Developer 2D](#)

LANGUAGES

English - Proficiency at a very high level comparable to a native speaker.

Hebrew - Native.

Danish - Currently taking lessons to further integrate into Danish society.

SOFT SKILLS

- Problem-solving: Ability to analyze and solve complex coding problems.
- Critical thinking: Evaluate solutions and make informed decisions.
- Communication: Clear communication with team members and stakeholders.
- Time management: Efficiently prioritize tasks to meet project deadlines.
- Collaboration: Work effectively in a team environment, share ideas, and resolve conflicts.
- Fast learner: Quickly adapt to new technologies and languages.

HOBBIES

Long Walks with My Wife – It helps us stay in shape and gives us time to talk and decompress.

Cooking – I enjoy cooking food, experimenting and enhancing recipes. I am a true foodie at heart.

Playing Video Games – From MMOs to strategy games I've been playing since I can remember. I also like to keep up with video game industry trends and even make my own little indie games.
